French Strike Due to Fail; Cancelled

By Associated Press Leased Wire
Paris, July 23.—The meeting of a national committee of the federation of labor which ended late last night brought out statements appearing to indicate that the general strike which had been proposed for July 21 but which was called off before that date, was abandoned because it was doomed in advance to failure.

During the meeting Secretary Puhaut, of the federation, admitted that the opposition to the movement had gained ground daily. In addition, Secretary Merreheim, of the metal workers' section, who has previously been regarded as one of the extremists, declared that the federation must disassociate itself from the "mobs of the street" or suffer extinction.

a Snag.

Those folks who have been advertising "brew your beer at home," even going so far as to send their red bannered postal cards to dry homes have struck a snag. E. J. Davis, the Anti-Saloon league Illinois superintendent, has dug up sections of the search and seizure act that read as follows:

"Section 4—Whoever shall, within prohibition territory, in any manner manufacture, advertise, sell, keep for sale, order, purchase, receive, transport, take an order for, give away or in any manner dispose of any compound or tablet from which intoxicating liquor as a beverage is made shall be punished in the manner prescribed in section 8 of the act."

"Section 8—Whoever . . . shall do or neglect, omit, or refuse to do anything required by this act, when there is no specific penalty or punishment imposed . . . shall, for each offense, on conviction, be fined not less than \$50 nor more than \$500, or imprisoned in the county jail for not less than 20 nor more than 60 days, or both, in the discretion of the court, . . . and for subsequent violations, not less than \$200 nor more than \$5,000 and be imprisoned for not less than 90 days nor more than one year."

"The act is clear and specific," said Mr. Davis, "and we propose to enforce it. These desecrated substitutes for high voltage drinks have got to get out. We will make a canvass this week and have our action thoroughly organized in another 24 hours."

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru the sure conqueror of rheumatism, does not stop all aches, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the secretions and drives rheumatic poison out of the body through the kidneys and bowels. It's marvelous how quickly it acts. Blessed relief often comes in two days, and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discover of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru has really conquered the worst of all diseases, and he has instructed your druggist to guarantee it in every instance.

Scott Austin in Milo township, Bureau county, was sold last week for \$426 an acre. This makes a new record for land sales in this county.

DANIELS TELLS WHY NAVY NEEDS RECRUITS

Secretary Daniels has authorized the following:

The navy department announces that recent press dispatches from Washington outlining recommendations made to congress relative to abandonment of the naval program, and the order directing the reduction of enlisted personnel, have resulted in a large number of inquiries as to whether or not now enlistments in the navy are being made.

It is not clear to the laymen why men are being released from the navy at the same time that an extensive recruiting campaign is being carried on; and in order to make this point clear, the department desires to state that the large number of men comprising the temporary navy came in for patriotic reasons to contribute their help in the world war. Many of these young men gave up lucrative positions in civil life or sacrificed from one to two years of their education, and the navy department is making every endeavor to release this class of men at the earliest practicable date.

A large number of men were enlisted for the period of the present emergency and a still larger number enrolled in the naval reserve force for active duty during the war only. Upon the ratification of the peace treaty their contract with the navy expires, and as soon as practicable thereafter they must be released from active duty. It does not follow however, that the mission of the navy is completed; and in order to carry out its operations it is necessary to recruit a large number of men to fill the authorized strength of the navy on a peace basis.

Plans are now being formulated for an extensive cruise of the United States fleet in the fall, to give the men in the service an opportunity to visit various ports as a reward for the excellent service performed during the period of hostilities; and it is believed that a large number of men in civil life may wish

to avail themselves of the opportunity to enlist for this cruise. Further details will be issued to the press when plans are consummated.

DIXON REPRESENTED AT S. S. CONFERENCE

Three hundred forty-five men and women turned toward their home in forty-one states and provinces last week after attending the ten-days annual session of the International Sunday School Association Training School at Conference Point on the shore of beautiful Lake Geneva, Wis. Among them were Mrs. Mary L. Kay and Miss Ethel M. Kay, of Dixon, both of whom are officers in the Lee County Sunday School association. Lee county has been represented at the school by from one to four of its Sunday school workers each year since the opening of the school in 1912. There were 63 this year from Illinois.

The students at Conference Point were instructed by a faculty of thirty men and women, specialists in their fields, drawn from many denominations and all parts of the country. Among the instructors were Dr. Walter S. Athearn, of Boston University; Dr. M. A. Honline, professor in Bonebrake Theological Seminary; Dayton, Ohio; Dr. H. F. Rall, professor in Garrett Biblical Institute, Evanston, Ill.; and Prof. H. Augustine Smith, head of the music and pageantry work in Boston University. W. C. Pearce of the International Association has been dean of the school from the beginning.

The school is growing so rapidly in numbers and interest, that plans are being made for branch schools on the Atlantic and Pacific coasts.

KEROSENE SELLS FOR \$22 GALLON IN EAST SIBERIA

By Associated Press Leased Wire
Piot, Serbit, June 15.—(By mail)—Kerosene distributed with other relief supplies by Red Cross agents here was received as if it were gold. A short time before the mayor of Piot had paid \$119 for five gallon can of the precious liquid. During the entire Bulgarian occupation the inhabitants of this district had no lights in their homes after sun down.

Bread had been selling at 50c a pound and the poor, unable to pay such a price, were living on cornmeal and oats. Now, with the arrival of tons of American flour and cereals of other supplies the situation is much relieved. Dozens of children have been found in abandoned houses living on the charity of neighbors. Mothers are ready to give up their children to anyone who will give them food and shelter. There are thousands of orphans with no one to care for them. The number of widows is distressingly large.

The famous rug making industry here is at a standstill but the Americans are trying to re-establish the peasants at their old trade. As the Bulgarians took all the machinery, metal and tools of any value, the workers in mechanical trades now are without implements.

Pershing Will Get Cambridge Degree

By Associated Press Leased Wire
London, July 23.—General John J. Pershing, accompanied by Maj. Gen. James G. Harbord, chief of staff of the American Expeditionary Forces, Col. Marshal and Maj. Gen. John E. Harlan, of the British army, motored to Cambridge this morning.
After General Pershing receives an honorary degree from the university he will be entertained at luncheon. At 2 o'clock this afternoon General Pershing will leave by special train for Dover, from which port he will return to France on a British destroyer.

Subscriptions to the 'Telegraph' must be paid in advance.

Dixon, Ill.

JULY 26th to AUG. 10th

FRED G. BALE
August 2

Aug. 2-2:45 p. m.--(A) Lecture, "The
Destiny of Democracy," Fred G. Bale

As the youngest Mayor in Ohio, Fred G. Bale received wide publicity and has been in public work ever since. He speaks from the heart as well as from the intellect. As Prosecutor in the Juvenile Court of Columbus he has had unusual advantages in observing the trend of the future citizenship of America. His lectures are interesting and instructive.

Aug. 2-7:30 p. m.--(A) Musical Prelude,
The Dixon Municipal Band

8:15 p. m.--(A) Lecture, Colonel B. M. Chipperfield, of Canton, Illinois. He will speak on the World War. Col. Chipperfield made a noble sacrifice by leaving a most lucrative law practice and enlisting among the earliest of American volunteers for Military service. He was promoted to Colonel, and was in charge of the work of the Judge Advocate Department for the United States Army in France.

He is an eloquent speaker, and his experiences on the battle front will prove most interesting and instructive.

WORMSER'S ALPINE SINGERS AND YODLERS, AUGUST 6

2:30 and 8:15 p. m.--(A) Musical Entertainment. Jean Wormser's Alpine Singers and Yodlers.

From their Alpine homes these singers and instrumentalists have been carefully selected and are trained and rehearsed in their world-famous inimitable Yodel and Warbling Songs. They appear in the picturesque national costume of their people, the most attractive in all Europe. Since their first tour in this country, they have added some of the favorite national and popular songs of America. Their programs are replete with variety. They sing solos, quartets and choruses with voices as clear as the mountains of their native land.

THE BATHING BEACH

The equipment of the Bath House and Beach will be better than ever this season. The patrons of the Assembly will have additional advantages in connection with this feature of summer enjoyment. The Beach will be well lighted and the Bath House, containing many private rooms, well ventilated and lighted with a walk extending to the water's edge. Bathing will be one of the big attractions during recreation hours.

A capable physical instructor will superintend this delightful pastime. He will have efficient assistants who are well qualified to give direction to the large company seeking instruction. Bring your bathing suit with you. In case you should forget it, remember that good suits can be purchased in Dixon or rented at the Bath House. In our opinion, the bathing place selected is safe from danger, when used with ordinary care and prudence. Proper safeguards and life preservers are provided. The Assembly cannot, however, become liable for accidents resulting from the use of the swimming resort shall exercise care, and shall obey the instructions of the Physical Director governing the proper use of the swimming beach.

RUMANIAN QUEEN HELPS RED CROSS

By Associated Press Leased Wire
Bucharest, Rumania, June 21.—(By Mail)—Queen Marie of Rumania is at present busily engaged in assisting in the distribution of a trainload of American Red Cross supplies, which she personally conveyed from Paris to Bucharest.

During her recent visit to France, the Queen made known the emergency medical and surgical equipment from the Red Cross and had three cars at

tached to the royal train on her return journey. Upon arrival here the supplies were immediately dispatched to central points for distribution to the military hospitals which were in need. Other supplies were set aside for the refugees fleeing from the fighting zone in Bes-sarabia.

These supplies have now been augmented by a shipload of material which has arrived at Galatz from the Red Cross storehouses in Athens. To insure their prompt delivery, Lieut. Col. Henry W. Anderson, Red Cross commissioner to the Balkans, himself accompanied the ship from Athens. It

was met at Galatz by Rumanian staff officers, and its arrival was the occasion for a remarkable demonstration on the part of the populace.

The resumption of hostilities in Bes-sarabia is keeping the hospitals there well filled and in adding hundreds to the already large number of homeless refugees.

For Tractor Lubrication

Heavy Polarine Oil Stanolind Tractor Oil Extra Heavy Polarine Oil

Stanolind Tractor Oil has been found, through severe and thorough tests, to be the best lubricant for more than one-half of the tractors made.

This oil is one of great durability. It stands the high temperature developed in a tractor engine without change in body.

It has the correct body to thoroughly lubricate the remotest frictional surfaces, eliminating scored cylinders and undue wear.

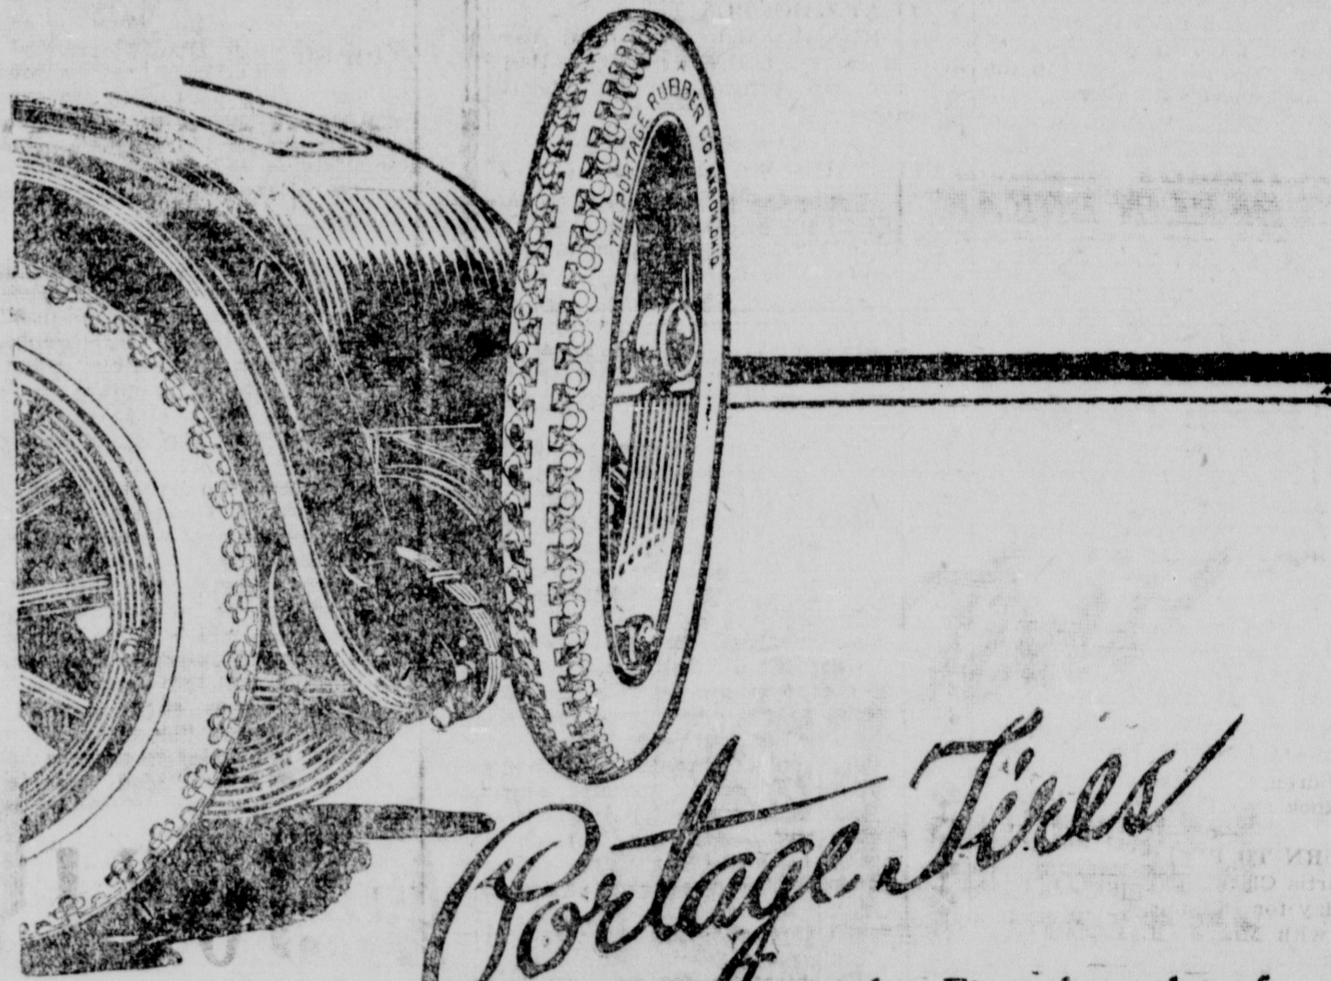

Where mechanical conditions or design make it desirable to use a slightly heavier, or slightly lighter, oil than Stanolind Tractor Oil,

Extra Heavy Polarine Oil or Heavy Polarine Oil is recommended.

Any Standard Oil representative will be glad to show you the chart of Tractor lubrication, prepared by our Engineering Staff. It indicates specifically which of these three oils the Standard Oil Engineers have found will give the best results in your particular tractor.

We have just published a 100-page book "Tractors and Tractor Lubrication," prepared by our engineering staff, which you will find a valuable reference book, and we believe it will save you many days of tractor idleness with the resultant money loss. It's free to you for the asking. Address

COOKING

--IS--

A JOY!

With "CONSERVO," cooking is a joy, because food is better cooked without the work and worry of cooking it.

The principle is simply cooking by heat and steam pressure—the result is food appetizingly tender, flavorful, flaky, delicious. The natural juices, aromas and flavors of the food are cooked into and not out of the food. Every mouthful of "CONSERVO" cooked food is a delight. So perfectly is the cooking process that odors and flavors do not intermingle.

The entire meal, from soup to desert, may be cooked in Conservo, using only one burner of the stove; just enough heat is necessary to boil a little water in the copper tank. When the water needs replenishing a whistle will call you fifteen minutes in advance.

Conservo saves FOOD—Inexpensive shoulder cuts taste like tenderloin; tough old hens are made tender and nutritious. Most foods cooked ordinary ways shrink one-fifth in cooking—Conservo cooked foods weigh same when cooked as before.

Conservo saves FUEL—In two month's time Conservo saves its cost in fuel alone.

Conservo saves TIME—Work and annoyance of cooking is eliminated by Conservo because the cooking foods do not have to be watched, basted, turned or stirred; while the entire meal is cooking in Conservo, the housewife may employ herself in healthier, pleasanter work than cooking drudgery.

All shelves are removable, so that a large turkey or ham may be cooked by suspending from hook in top of "Conservo."

Were you ever disappointed with your Home-made Preserves?

Even the best recipe can't make allowances for the way sugar will harden into candy—or for the failure of a jelly to "jell".

Thousands of women are finding the ideal preserving syrup is a blend of ¼ Karo (Red Label) with ¾ sugar—instead of all sugar. Preserving done this way is always uniform—jelly that really "jells"—jam that is neither too syrupy nor too thick.

It gives you preserves with the natural fresh fruit flavor.

This fine, clear Karo Syrup has a natural affinity for the juices of the fruit. It blends the fruit with the sugar—makes your syrup rich and heavy, and holds jams and jellies firm and mellow, with not the slightest tendency to "candy" in the glass.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE A book of sixty-eight pages that gives you the best recipes for sure results in preserving. Easy to follow. The Corn Products Cook Book is handsomely illustrated—and it's free. Write us today for it.

FILMING NEW SCENES.

Confirmed and hardened movie fans
may care nothing about this announce-
ment. But the crowd of people with
good taste and judgment and a desire
to see the motion picture finally live up
to its possibilities will be interested to
learn that the picture-making compa-
nies consider California scenery just
about exhausted as a source of universal
backgrounds.It mattered whether the scene was to
be mountain or plain or wooded dell.
Somewhere within motoring distance of
Los Angeles was a fairly adaptable view,
and it was used over and over again
until patrons of the film drama have
begun to recognize the very shrubbery
by the roadside. To visit certain parts
of California would be, to many movie
addicts, like going home. The season
made little difference, either. The he-
roine, clad in woolen hood and furs,
could be rescued from the villain and
frodoite in a leafy landscape full of
pretty blossoms and patches of Cali-
fornia sunshine just as easily as not.But now this is to be somewhat
changed. The producers are broadening
out in their search for new scenes. They
are going to penetrate the wilds of Can-
ada. They will "shoot" scenes in New
England and in the still unlined re-
gion of the Great Lakes. For southern
scenes they may even seek the really
truly south, with Louisiana as a starting
point.Of course movie shows are not sup-
posed to be tragicomic. Nevertheless the
spectator will appreciate the beautiful
backgrounds and wide variety of true
settings that will thus become available.

NO SECRET IN SUCCESS.

In a pamphlet addressed to "The
Young Men of America," the American
Exchange Bank offers this bit of sage
advice:"If the average young man desires to
be successful he must submit to the
conditions which success imposes. These
primarily are honesty, industry and
economy, the practice of which is a car-
dinal necessity in the formation of
character."That is true. The young man who
begins early to practice honesty, indus-
try and economy is bound to get ahead.
The man who neglects any or all of
these is giving hostages to fortune. He
who puts these watchwords to his mast-
head has an ever-growing advantage
over the chap who has neglected any or
all of them. Add a kindly disposition, a
willingness to serve and a breadth of
view and you have a combination that
is an asset beyond price in the great
game of getting along in the world.And what has all this to do with
banking, that the institution quoted
should show such a remarkable inter-
est in the future of the young manhood
of the country? Oh, that is simple. The
thrifty man is invariably a bank depos-
itor, the honest man is one to whom the
bank likes to lend money, and the indus-
trious man invariably increases his de-
posits. It's a good thing to interest a
young man in banking. Give him a
bank book and he is apt to spend his
evenings in a manner that will not
cause an overdrawing of his account.

Loan & Building association office, two
exceptionally old and interesting books.
One of them printed in 1797, entitled
"The Constitutions of the Sixteen
States Which Comprise the Confederat-
ed Republic of America," contains the
Declaration of Independence, Articles
of Confederation, the Definite Treaty of
Peace Between the United States and
Great Britain, the Constitution of the
United States and Amendments, and the
constitutions of New Hampshire,
Massachusetts, Rhode Island, Connecti-
cut, New York, New Jersey, Pennsyl-
vania, Delaware, Maryland, Virginia,
North Carolina, South Carolina,
Georgia, Vermont, Tennessee and Ken-
tucky. The other book, containing the
farwell addresses of President George
Washington, was printed in 1812. Both
books are in excellent preservation.IS BROTHER-IN-LAW

ARMY IN SIBERIATokio, June 15.—(Correspondence of
the Associated Press.)—The Bolshevists
in Siberia still are engaged in propa-
ganda work and organizing their army.
Those in the southern part of the Mar-
time Province appear to have complet-
ed the organization of their army, for
since the beginning of May, they have
been destroying railroads, attacking
trains and capturing stations.About 1500 Bolshevists, early in the
morning of June 3, attacked the Japa-
nese garrison at Ipolitovka and caused
some casualties. The total strength of
the enemy in the region of Sochan,
south of Ipolitovka, is estimated at
from 4000 to 5000. Their headquarters
seem to be located in the neighborhood
of Ipolitovka.The Bolshevists in Amur province
are engaged only in propaganda work
and are not concentrated in any for-
midable number. Those in the direction
of Za-Baikal are grouped together in
the vicinity of Nelchinsky, their total
number being about 4000. On account
of the pressure from the troops of Gen-
eral Semenov, says the report, these
Bolshevists are demoralized.George H. Primrose
Famous Minstrel, DeadBy Associated Press Leased Wire
San Diego, Calif., July 23.—George
H. Primrose, famous minstrel, died in
this city early today, following a severe
illness that began one month ago. He
was born in London, Ontario, 66 years
ago. A widow and a brother survive
him here.Primrose's career as a minstrel dates
since the time of the famous Hayti
troupe. He began his stage career
when 15 years old, and is credited with
having originated soft shoe dancing.After being with the Hayti troupe
for several years, Primrose toured the
country with a company known as Bar-
low, Wilson, Primrose and West. Lat-
er the name was changed to Primrose
and West, a combination which lasted
for many years. About 16 years ago,
Primrose joined forces with Lew Dock-
stader.Of late years he has appeared on the
vaudeville stage.Largest Oil Gusher

eral weeks today had developed into a
gusher, flowing at the rate of from 8,
000 to 10,000 barrels a day. Oil men de-
clare it is the largest in the state. For-
ty men were rushed to the well yester-
day to try to control the flow, but their
efforts had proved unsuccessful up to
today.Rockefeller Offers

of an offer by John D. Rockefeller to
contribute \$100,000 to the Chautauqua
institution which conducts a lecture
series at Chautauqua, N. Y., provided
\$500,000 is raised from other sources,
was made here today by Arthur E. Bes-
tor, president of the institution.CITY EMPLOYEES
RESTLESS; WANT
INCREASED WAGECom. Slothower Tells
Council of Feeling
in Departments.

(Continued From Page One.)

He was trying to cross the river before
he came to it, and the council voted to
increase Miss Powell's salary as city
stenographer and bookkeeper from \$25
monthly to \$40 per month, this to be-
come effective September 1.

Want Water Mains.

George T. Toot, representing prop-
erty owners on the north side, appear-
ed before the council with a signed peti-
tion, asking for the extension of water
mains on Morgan street, west to Ster-
ling avenue and thence north to Mc-
Kinstry street, a distance of over 500
feet. The city's share of water main
extensions for the year has been in-
stalled, and the north side property
owners were assured that their petition
would be placed on file and taken up
among the first next year.

Taxi Ordinance Altered.

The much talked of taxi ordinance,
which has been discussed at several
previous meetings, was again brought
up and required but little argument to
bring it to a head. The commission
was unanimously in favor of eliminat-
ing section four of the proposed ordi-
nance which pertains to the insurance on
automobile taxis. The entire council
also went on record as being unani-
mously in favor of the new scale of
prices as suggested by Earl Watts
which provides a maximum fare not to
exceed 35 cents between the hours of
6 in the morning and 10 in the evening,
and 50 cents thereafter until 6 o'clock
in the morning. With these two chang-
es the city attorney was instructed to
draft a new ordinance to be presented
for passage at a later meeting, no defi-
nite time being set.

East End Smoke Nuisance.

Commissioner Slothower again in-
troduced the subject of the east end smoke
nuisance. He told the council of com-
plaints which have been registered
with him recently. Commissioner Geo.
Campbell stated in this connection that
one of the state foresters had visited
Dixon last week and on looking over
the situation in the east end, predicted
that all of the trees would be killed in
a few years if some steps were not tak-
en to abate this nuisance. Some trees
have already been killed by the smoke
and gases coming from the stacks of
east end plants, it was reported.The board of local improvements in a
brief session decided to advertise for
bids on local improvement ordinances
188, 190 and 191, covering sewer exten-
sions on West First street, Kings court
and Jackson avenue. Bids will be open-
ed at the regular meeting of the council
at 8 o'clock, Tuesday evening, August
5th.

Special RegimentsBy Associated Press Leased Wire
Washington, D. C., July 23.—Special
regiments, composed largely if not en-
tirely of married men, probably will re-
sult from the war department policy
announced today regarding the disposi-
tion of regulars who are returning to
this country with French wives. Or-
ders have been sent to commanding of-
ficers of debarkation ports to transfer
such men and their wives to either Fort
Oglethorpe, Ga., Fort Ethan Allen, Vt.,
or Fort Myer, Va.; when they belong to
the cavalry, and to Madison barracks,
N. Y., in the case of infantry men.Tentatively selected as the units
which are to become the P. F. V. (Fath-
er of Families Veterans) of the military
establishment are the third cavalry at
Fort Myer and Ethan Allen, the sixth
cavalry at Fort Oglethorpe, Ga., and an
infantry regiment, yet to be named, at
the New York post. The regimental
commander in each instance has been
instructed to provide facilities which
will enable the soldier to take care of
his new responsibilities.Official estimates are that 20,000
American soldiers married foreign
brides.ROCHELLE PLANS FOR
NEW CITY ICE PLANTRochelle is planning establishment of
a municipal ice plant, to save the peo-
ple from the high cost of ice, and what
is equally important, to guard them
against ice shortage. Plans for the en-
terprise are said to be taking definite
shape, with a promise that in thirty
days after these plans are agreed to the
institution will be a going concern and
delivering artificial ice at \$3.00 a ton.
Mr. Willoughby, an expert from Chic-
ago representing the Montague Iron
Works, says the machinery can be in-
stalled for \$29,000 and the grounds and
building will cost \$6000, making \$35,000
in all for a 25-ton plant.PRIVATE OWNERSHIP

How to Handle Roads
Satisfactorily.

By Associated Press Leased Wire

Washington, D. C., July 22.—Private
ownership and operation of railroads,
merged into 20 or 30 great competing
systems under the supervision of a fed-
eral transportation board, with a statu-
tory rule of rate-making according to the
roads a net return of six percent, was
offered to the house commerce commit-
tee today as the plan of the national
transportation conference.Continued government operation un-
til remedial legislation is enacted was
urged by the conference, with the limi-
tation that such legislation should be
enacted this year.Government guarantee of earnings
was not favored by the conference. In-
stead it was urged that the interstate
commerce commission be made respon-
sible for rates and fares designed to
yield the carriers in each designed traf-
fic section not less than six percent up-
on the aggregate fair value of the prop-
erty.

ONLY REACTIONARIES OPPOSE LEAGUE, SAYS TENNESSEE DEMOCRAT

**Sen. McKellar Declares
Same Men Retard
U. S. Progress.**

By Associated Press Leased Wire
Washington, July 23.—The league of nations was supported in the senate today by Senator McKellar, democrat, Tennessee, as one of the greatest forward step in the nation's history. Most of the opposition he asserted, came from "reactionaries" of the same school as those who opposed the federal constitution and those who later handicapped the growth and development of the country.

Always Been Reactionaries
"There have always been reactionaries in our country," said the Tennessee senator, "and there have always been progressives. There have always been forward looking men and backward looking men. There have always been men who looked to precedents and to the past and men who looked to the future. If the reactionaries had had their way in the beginning of our government, we probably would not have had a republic. If they had had their way the republic would never have been enlarged."

"I am not a reactionary. I am a democrat in its most progressive sense. We ought to improve upon those who have gone before us. We have had better advantages than they had. They blamed the past. Every dictate of conscience, every dictate of humanity, every dictate of an enlightened self interest, every dictate of commercial and industrial advantage, every dictate of a desire for peace, requires the establishment of this great world pact."

CONTINUE PROBE INTO DEATHS OF 12 BY EXPLOSION

THREE PROBES RESUMED
By Associated Press Leased Wire
Chicago, July 23.—Three investigations—federal, state and city—were resumed today into the cause of the destruction of the Goodyear Tire & Rubber company's dirigible on Monday, which caused the death of 12 persons, the injury of 28 others and wrecked the interior of the Illinois Trust and Savings bank. While an attempt to place the responsibility is being made at the inquiry, preparations for funeral services for the victims of the ill fated blimp were going forward in various parts of the city.

The inquest which was started yesterday was adjourned because two witnesses—John A. Boettner, pilot of the ill-fated airship on its last trip and W. F. Young, local aeronautical expert of the company—refused to testify on advice of counsel.

It was declared early today that a grand jury investigation was probable. The dependents of the nine employees of the Illinois Trust and Savings bank who were killed will receive \$4,500 insurance, it became known today. Each was insured for \$1,000 on a life policy and \$3,500 on an accident policy furnished by the bank. President John J. Mitchell, of the bank, declared that in addition to the insurance all necessary assistance required by the families of those slain or injured would be given.

WILSON RESUMES CONFERENCES ON LEAGUE-TREATY

(Continued from page 1.)

solution of the problem, but that he had found himself unable to convert the Japanese delegates to any other view.

Allies Were Bound.
The senators said they had been told that Premiers Clemenceau and Lloyd George represented to the president that they were bound by the agreements of their governments with Japan, and that if the Japanese statesmen were to be converted to any other views the president himself would have to undertake the attempt. It was futile, the senators said they were told.

Senators calling at the white house today were the last on the original list of fifteen selected by the president, but invitations for the other republican senators to call at the white house will go forward from day today, it being the president's desire to confer with all of them before he starts on his tour of the country.

President Wilson has been devoting some of his time recently to getting together documents used by the American peace delegation at Paris which have been asked for by the senate in its consideration of the treaty, Secretary Lansing, who was to arrive in Washington late today from Paris, was expected to assist in this work.

While the foreign relations committee has not yet reached a decision as to calling members of the American delegation on for examination on features of the treaty, it is probable that Mr. Lansing will be summoned after the committee completes the reading of the text which was continued today.

Winter Wheat Will Show Good Yields

By Associated Press Leased Wire
Springfield, Ill., July 23.—Harvesting of Illinois grain crops which is in full swing shows only fair yields of spring wheat and oats, but winter wheat is yielding good returns in northern counties, according to the crop bulletin of the federal weather bureau for the week ending Tuesday, July 22, made public today. Seasonable temperature, excessive sunshine with little or no rain is the substance of the weather report.

"Corn made excellent progress in the north, very good in central and fair to average in the south," the bulletin continues. "It is tasselings and mostly laid by. Corn now is in its critical period and good rains will be necessary in many sections soon."

"The condition of pastures and meadows varies, but rain is needed."

"Peaches are being marketed in the extreme south."

HENRY FORD ADMITS HE KEPT SON EDEL FROM ARMY SERVICE

**Says He Dissuaded Boy
From Taking Place
in the Draft.**

By Associated Press Leased Wire
Mount Clemens, Mich., July 23.—According to the testimony of Henry Ford today his son, Edsel, wished to go to war, but was dissuaded by his father.

The examination of the elder Ford, who took the stand eight days ago in his libel suit against the Chicago Daily Tribune, was concluded and he left the court house. He was examined by Attorney Elliott G. Stevenson, for the Tribune, and by his own lawyer, Alfred Lucking. It was the latter who brought up the subject of the exemption by Edsel Ford, which has figured on the recent speeches in the United States senate.

Relieved His Father.
"Will you state whether your son had become necessary to the work of your great factory when the United States entered the war in order to relieve you of the detail of it?" asked Mr. Lucking. "We have worked together all his lifetime," said the witness.

"Had he reached a position where he was a great relief to me?"

"Yes, he is a great relief to me."

"In looking after war work?"

"Yes."

"He personally was willing to go to war?"

"Yes, he had many offers."

"You felt you needed him in the factory?"

"Yes."

Offered Commission.
"Was he offered commissions in the army, although he would stay right in the factory?"

"Yes."

"On war work?"

"Yes, but he declined them."

"Do you remember saying that you didn't care to see him camouflage; to wear a uniform and appear to be in the service, when he was actually attending to necessary war work in the factory?"

"Yes."

Attorney Stevenson asked Mr. Ford if he assumed all responsibility for his son not enlisting.

"Yes, I think I did," replied the manufacturer.

"He was more useful to you in the factory?"

"Yes."

"The draft board disagreed with you?"

"I think so."

"That is all."

MORE OUTBREAKS IN WASHINGTON; 1 KILLED; 1 HURT

By Associated Press Leased Wire
Washington, July 23.—Although there was sporadic firing in some of the negro districts until early this morning the major casualties in last night's clashes between whites and negroes consisted of only one white man killed and another probably fatally wounded. Scores were injured in varying degrees as a result of blows and fists, clubs and stones and the wounding of knives but none of the wounds was expected to be fatal.

The man killed last night, Isaac B. Halbring and the seriously wounded

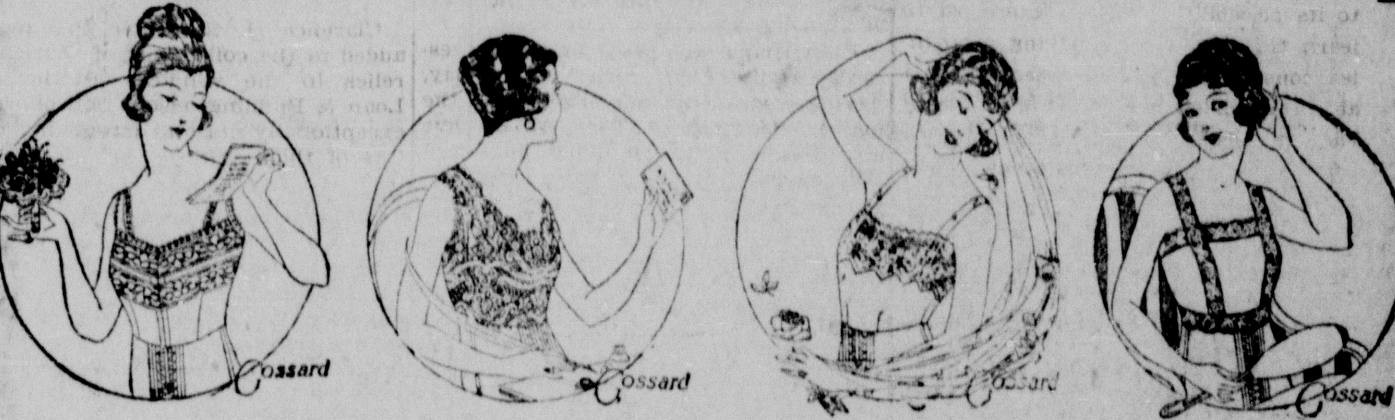

Capital an Armed Camp

Despite the fact that the capital was an armed camp, the fourth night of the race warfare was less violent than Monday when four persons were killed outright and nearly a dozen seriously hurt. After a conference between Secretary Baker and President Wilson late yesterday a force of about 2000 troops under the command of Maj. Gen. W. G. Haan, recently returned from overseas service was ordered to Washington from Camp Meade and other nearby posts. This force was expected to remain on duty until the wave of lawlessness had burned out and normal conditions restored.

Net Corsets for Summer Wear \$1.50 Pair

Women who want comfort in dress during the hot days of July and August will appreciate the new models on display in our corset department. They are highly serviceable and delightfully cool and the price is within the reach of all. \$1.50 the pair.

GOSSARD BRASSIERES

A properly fitted Gossard brassiere is second only in importance to a properly fitted Gossard corset. They are designed for every figure type and fit with an incomparable smoothness and comfort.

The low bust corsets of Spring and Summer make a correctly fitting brassiere one of the first considerations of every well dressed woman. They are priced at 50c, 65c, \$1.00, \$1.50 to \$5.00.

Do You Want Your Skin to Have a Soft Velvety Tone?

Then use our excellent face powder. It spreads satisfactorily and it stays on as long as you want it. It is fine grain and will not irritate the most delicate skin. It is charmingly perfumed and may be had in flesh, pink or white—

HERE ARE CREAMS, LOTIONS,

Skin Bleaches, Rouge and Talcum. The varieties shown are very pleasing and since it is an obvious fact that creams cannot overcome all beauty ills, we offer creams to be used before powdering, another to be applied at night before retiring. A cleansing cream takes impurities from the skin which soap and water do not touch. Lotions for sunburns, etc., all of these tend to make a healthy and beautiful complexion.

Prices on these are very reasonable, when you consider quality. The out-of-doors life through the Summer months demand these articles.

SANDRA THE JEALOUS

By JANE PHELPS.

EVERETT BUYS SANDRA JEWELS.

CHAPTER XXVII.

I met Everett at the modest and we selected a soft clinging stuff for my dinner gown. To my disgust Everett turned to the designer and said:

"Be sure you make Mrs. Graham's things very girlish and simple."

"What did you tell her that for?" I exploded the question as soon as we left the shop in such a way that Everett looked at me in a black puzzled way.

"Tell her what?" He had already forgotten all about it evidently.

"To make my things girlish and simple! I don't want them made that way! Everybody treats me like a child, and you make me look more like one by telling the dressmakers such things."

"You are acting and talking like one now—a very young one."

As usual his tone and manner prevented me from saying more, but it did not prevent me pouting.

"Better round up your face a little, Sandra," he said when we stopped in front of a jeweler's. I had been so cross that I had paid no attention to what he had said to the chauffeur.

"The salesmen will think I have been spanking you," he smiled so queerly when he said that I laughed, and so made up with him. Everett seldom joked, but when he did he was so comical I couldn't help laughing even if I felt cross.

I had wondered all the morning if I was to have Leola's sapphires. I soon found out that he had no such intention. He bought me a darling sapphire and diamond bracelet, and a wonderful sapphire pendant. They cost as much as father spent in a year for the entire family. But I had become accustomed to Everett's liberality by this time. At first I had thought of it as extravagance. Now I knew that broken, even rich ones like Everett, often make quick turns in the stock market which brought them in a great deal of money; and which they spent as easily as I came.

I was delighted with my lovely sapphires. What girl wouldn't be? I really had always loved that shade of blue. It was simply my feeling that Leola had worn it that made me object to wearing it. So I thanked Everett and leaned over to kiss him. We were in my town car, so I thought it all right.

He drew back.

"Remember you are in the street, Sandra. Someone might see you who either did not know, or who did not recognize me, and would talk of your indiscretion. Save your caresses for the privacy of home."

I felt chilled, hurt. I had not heard that word "indiscretions" since he had told me of Leola being indiscreet. Now I wondered if wanting to kiss him had been what he meant. If he did no wonder she did things he didn't like—no wonder she drowned herself if he would not let her show her love for him. For the first time a stir of pity for her ran thru me. Then I recalled that Everett had said he loved her so dearly, and my jealousy was again in the ascendant.

How I wished he had not made me promise not to speak of her. There were so many questions I wanted to ask; so much I longed to know. If Everett would only tell me things, talk them over with me, I knew I would be happier. There were so many things that troubled me.

But never would I dare mention Leola to him. Never so long as I lived. But some day—after a long while when it would not seem quite as much as if I were breaking my promise never to speak of her to anyone—never ask any questions, I would get Betty or Mrs. Gray to tell me what they knew. Perhaps they knew what Everett had meant by "indiscretions."

Everett had me set him down at his office, then I went home. I showed my lovely sapphires to Mrs. Gray and

Hetty, and in their enthusiasm and admiration for them I almost forgot that Everett had repulsed me.

"Mr. Graham loves this color," I said after a while in hopes that I might draw them out to say something about those other sapphires, "he always wants me to wear it."

Neither said anything, and I caught a fleeting glance of a look Mrs. Gray bent on Hetty. Did it mean that she Hetty was to say nothing to her about Leola's things? Had Everett told Mrs. Gray that I was not to be enlightened? How I wished I knew.

I put the sapphires away without again looking at them. Someway I always resented the fact that I was never to know about this other woman; the wife whom Everett had loved, I was persuaded that he never would love me. That he had married me simply because he wanted a wife whom he could mould, and who would be a mother.

One day I took my courage in my hands and asked Mrs. Gray:

"Did Mr. Graham and—ever have any children? I couldn't speak her name."

"Hasn't he told you?" she asked, bending a keen look on me.

"No—I didn't ask him when we had our confidential chat, and I dislike to bring it up again," I replied, thinking I was wonderfully tactful.

"Then I can say nothing," she turned away, then added: "But there is nothing for you to worry about absolutely nothing."

Tomorrow—Sandra decides to be indiscreet.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easily it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

SERB FAMILIES, RUINED BY WAR, LIVE IN STABLES

Belgrade, June 22.—(Correspondence of The Associated Press.)—In northern Serbia many families, wealthy before the war, have been found by officers of the American Relief Administration and the American Red Cross living in stables and chicken coops. Their homes had been destroyed by the advancing or

retreating armies. Their beds were heaps of straw covered with burlap. It was all that remained as furniture in their once pretentious estates. They were penniless and had no clothing except what they wore.

The condition of the Serbian peasants is beyond description. A large proportion are homeless. Most families have been deprived of their wage-earners by death. The mother is now obliged to support herself and children on what she can produce on a farm stripped of its machinery and tools. Most of the small stores of seed for next spring's

DOCTOR TELLS HOW TO DETECT HARMFUL EFFECTS OF TOBACCO

Try These Simple Tests

New York: Doctor Conner, formerly of Johns Hopkins hospital, says: Many men who smoke, chew or snuff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would soon get well if they would only stop the use of tobacco. The chief habit forming principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer with heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests. Read aloud one full page from a book. If, in the course of reading your voice becomes hoarse, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke walk up three flights of stairs at a reg-

ular pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or snuff to quiet your nerves, you are a slave to the tobacco habit, and are positively poisoning your self with the deadly drug, nicotine. In either case you have just two alternatives—keep on with the self-poisoning process irrespective of the dangers and suffer the consequences, or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco, the craving will have left you. With the nicotine poison out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including the Public Drug Co.

saving were removed by the enemy. The Red Cross hospitals are crowded with mothers carrying emaciated children, old men with the infirmities of their years, old women bent and misshapen, and young men broken by war. The soup kitchens tell the same story.

No Camouflage in This Price

We have reduced the Titan 10-20 price \$225. You can now get the world's standard 3-plow tractor for \$1,000.

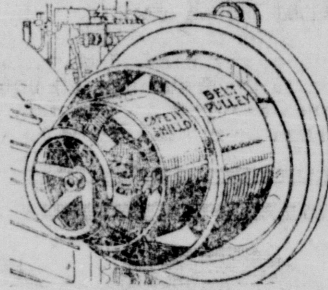

Titan 10-20
\$1,000
Cash F.O.B. Factory
\$1,050 on Time

When you buy a TITAN the original price includes:

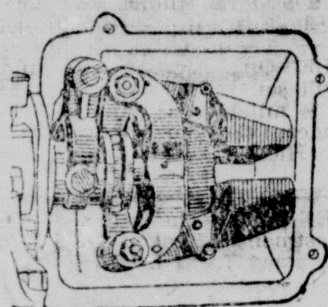

Friction Clutch Pulley

A large, wide friction clutch pulley, made in five sizes, equipped with safety shield, is mounted directly on the crank-shaft of the low-speed, steady Titan engine and delivers the full power to the driven machine. The Titan 10-20 can be quickly backed into the belt because of the location of the pulley and as belt clears the front wheels and other parts of the tractor by a generous margin. It is not necessary to dig holes for the front wheels to get belt clearance. The Titan pulley was not put on as an afterthought. The designers did not overlook it in the first place. Some tractor builders committed this very serious error, due to lack of farm knowledge and experience. To remedy this error, they designed a small make-shift pulley, in one size only, attached it in an awkward place, and charge you \$35 to \$40 for it. The Titan 10-20 friction clutch pulley is furnished without extra charge.

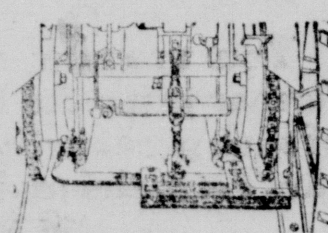

Throttle Governor

Some tractors are sold without governors because, perhaps, the designers did not know that one was needed. Which is the best economy—to pay an operator a salary just to sit on the tractor and adjust the fuel to the load variations when engaged in belt work or let a throttle governor do it without extra cost?—do it automatically, perfectly. The Titan throttle governor saves fuel, prevents grain losses by delivering uniform power to your thrasher and lengthens the life of both tractor and driven machines. You get this governor without extra charge.

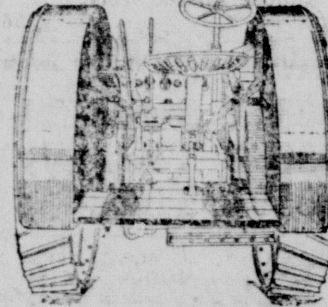

Drawbar

Some tractor builders put a hook and eye affair on the tail end of their tractors—and call it a drawbar! They seem to have overlooked the fact that a farm tractor not only pulls plows but also mowers, hay loaders, grain binders, harrow-threshers, etc., each requiring different hitch adjustment. Perhaps they didn't know about these other machines. Look at the Titan drawbar. Note the provisions for a wide range of adjustment both up and down and sideways. The Titan drawbar fits every need and it is furnished without extra cost.

Fenders

The designers of some tractors evidently did not know that the drive wheels throw dirt, dust or mud over the operator and machine unless fenders prevent it. The Titan 10-20 has such fenders. They are also a "safety first" feature. The state of Michigan has passed a law prohibiting the sale of fenderless tractors. Titan fenders are furnished without the \$40 to \$50 extra charge made by the "low-price" manufacturers.

Platform Some tractor designers apparently never sat in a tractor seat ten hours a day or more, jolting over rough fields, so they can't appreciate what a relief it is for the tractor operator to rest himself now and then by standing up, without loss of time. You will appreciate the Titan 10-20 platform that enables you to do this. It is a comfort feature furnished regularly with every Titan 10-20 tractor—no extra cost.

Tools A complete set of sixteen tools is furnished with every Titan 10-20. This handy tool-kit is provided in spite of the fact that Titan 10-20 tractors get out of order less frequently than any other tractors in the world. Some tractor concerns whose tractors really need frequent adjustment and repairs, furnish nothing but two or three wrenches. They tell you that their product is so good that it doesn't need adjustment. Do you believe this? As a matter of fact, they omit necessary tools for the same reason they omit the essential features described above—to make a low "camouflage price"! The Titan 10-20 complete tool kit is furnished without extra charge.

SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your Bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lazy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

BOLSHEVIKI SEEK PEACE WITH THE RUMANIAN TROOPS

Truce for Eight Days Signed—Lenine Will Give Bessarabia.

By Associated Press Leased Wire
London, Tuesday, July 22.—(Delayed)—A bolshevik delegation has arrived at Kishineff with an offer of peace to the commander of the Rumanian Diester troops on behalf of Nikolai Lenine, the bolshevik premier according to a Berlin government wireless dispatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and bands of Admiral Kolchak, head of the all-Russian government at Omak, from crossing the Rumanian frontier.

An armistice to last 8 days has been concluded on the Bessarabia front and the delegation has gone to Rumanian headquarters.

PRETTY GIRL TOOK NAP IN ROUGH-BOX

Freeport, Ill., July 22.—A beautiful well-dressed girl of about 18 years was found asleep in a rough-box in the Oakland cemetery Sunday morning by the caretaker, as he was performing his duties about the place. The gentle caretaker did not awaken the girl, but when her Sunday morning beauty sleep was finally ended he asked her why she happened to be using the rough-box instead of the city's better equipped hotels as a boudoir.

The girl made only vague responses to his questioning, and the only definite statement she made was that she was running away from "someone." The caretaker says that she did not appear to be demented in her conversation or actions aside from her choice of a bedroom, and that she was not intoxicated. She disappeared from the cemetery soon after being discovered by the caretaker.

The girl's choice of a rooming place may be interpreted by some as a sad commentary upon the well-known insufficient housing conditions in this city.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry, are dependent, have spells of mental depression, feel blue and are often melancholy, believe that these conditions are due to outside influences over which they have little or no control. Nearly always, however, they can be traced to an internal source—acid-stomach. Not it to be wondered if acid-stomach, beginning with such well defined symptoms as indigestion, belching, heartburn, bloating, etc., will, if not checked, in time affect to some degree or other all the vital organs. The nervous system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, enthusiasm and energy slipping. And true life is dark—not worth much to the man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous remedy called EATONIC that brings you back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands upon thousands of sufferers have used EATONIC with such marvellous helpful results that we are sure you will feel the same way if you will just give it a trial. Get a big 50-cent box of EATONIC—the good tasting tablets that you eat like a bit of candy—from your druggist today. He will return your money if results are not even more than you expect.

House Republicans Will Discuss Many Questions Tonight

By Associated Press Leased Wire
Washington, D. C., July 23.—House Republicans were notified today that tonight's party conference would consider any question presented although discussion was expected to center about proposed enlargement of the legislative committee. The conference will frame a legislative program to be carried out before recess, permitting some vacation, beginning late next month.

Supporters of the large committee plan proposed that four men, Representatives Anderson, Minnesota; Reavis, Nebraska; Nolan, California; and Slomp, Virginia, be added to the committee personnel.

House leaders today asserted that the conference would not be asked to select any certain men, but that additions if made, would be by conference vote. Indications were that only two men would be added to the committee.

New York Chinatown Has Been Reformed

By Associated Press Leased Wire
New York, July 23.—The transforming of Chinatown that has been in progress for a decade has finally thrust its Americanizing influences into the Chinese temple in Mott street, with the result that the joss and the lesser idols have been relegated to a dusty closet.

For years the joss was one of the attractions of Chinatown and every well conducted sightseeing party was led before the idol that occupied a prominent position in the council hall of the temple. A Christian clergyman, the Rev. Lee To, head of the Chinese association, which now holds sway in the temple, is responsible for the removal of the idols, which is significant of the present day attitude of the Chinese toward old traditions.

False modesty has caused this subject to be ignored
Now a Fifth Ave. modiste permits us to make public her experience
"Being in a position to come in close personal contact, professionally and socially, with women of wealth and distinction," writes a well known modiste, "I have come to very definite conclusions about this subject."
"Until now I have had no intention of making these conclusions public. But recently I have come to feel that it is a thing to be remedied only by open discussion. If you feel this letter will help, you are at liberty to publish it."
"A woman whose business it is to help other women in their search for true expression of their individual selves; whose joy it is by the use of line and color and fabric to help them show the world their best, this woman comes to know other women. She knows their possibilities and their limitations, their ideals and the weaknesses that make them fall short of their ideals."
"How many women are doing themselves grave injustice!"
"And this very knowledge makes me feel the more keenly the injustice that so many of them are doing to themselves."
"I've known wonderful women, of lovely figure, of rare personal attraction, whose gowns I made in such a way that they only emphasized this charm, who yet, I knew, would feel miserably to make others feel that they were wholly lovely. They didn't seem to know that the odor of perspiration was destroying the effect of all my efforts, all the force of their own confident poise."
"They know that it has a real power to stand in the way of a woman's progress and charm. They notice the defect in others, but do not realize that others may notice it in them!"
"I'm glad of the present crusade to make women know. When they do know, they'll act just as they've done in every other great movement for the betterment of themselves and their world."
It is a physiological fact that the odor which is caused by the chemicals of the body is practically always present whether we ourselves notice it or not. Too often we do not notice it. No amount of soap and water, or powder, can correct this. And the underarm perspiration glands are under such sensitive nervous control that sudden excitement or emotion or embarrassment is sufficient to make them more active, and therefore to cause this odor to become more apparent.
This subtle nature of the thing we must face if we would be always at our best.
How fastidious women are meeting the situation
Fastidious women everywhere know that this cannot be neglected any more than any other essential of a woman's toilet. They are giving it the regular attention that they give to their hair, or teeth or hands. They use Odorono, a toilet water especially prepared to correct both perspiration moisture and odor.
Odorono is antiseptic, perfectly harmless. Its regular use gives what women are demanding—absolute assurance of perfect daintiness. It restores the skin glands to a normal condition, correcting the cause of both the moisture and odor of perspiration.
So absolutely sure when made a regular habit
Use Odorono regularly, just two or three times a week. At night before retiring, put it on the underarms. Don't rub it in. Allow it to dry, then dust on a little talcum. The underarms will stay sweet and dry in any circumstances!
Women who find that their gowns are spoiled by perspiration stain and an odor which dry cleaning will not remove, can keep their underarms normally dry and sweet by the regular use of Odorono.
If you are troubled in any unusual way or have had any difficulty in finding relief, let us help you solve your problem. We shall be so glad to do so. Address Ruth Miller, The Odorono Co., 950 Blair Avenue, Cincinnati, Ohio.
Your dealer can supply you. Go to him today and get a bottle of Odorono of the size that you prefer. Regular sizes, 60c and \$1.00. Trial size, 30c.

SANDRA THE JEALOUS

By JANE PHELPS.

EVERETT BUYS SANDRA JEWELS.

CHAPTER XXVII.

I met Everett at the mollie's and we selected a soft clinging stuff for my dinner gown. To my disgust Everett turned to the designer and said:

"Be sure you make Mrs. Graham's things very girlish and simple."

"What did you tell her that for?" I exploded the question as soon as we left the shop in such a way that Everett looked at me in a black puzzled way.

"Tell her what?" He had already forgotten all about it evidently.

"To make my things girlish and simple! I don't want them made that way! Everybody treats me like a child, and you make me look more like one by telling the dressmakers such things."

"You are acting and talking like one now—a very young one."

As usual his tone and manner prevented me from saying more, but it did not prevent me putting:

"Better round up your face a little Sandra," he said when we stopped in front of a jeweler's. I had been so cross that I had paid no attention to what he had said to the chauffeur. "The salesmen will think I have been spanking you," he smiled so queerly when he said that I laughed, and so made up with him. Everett seldom joked, but when he did he was so comical I couldn't help laughing even if I felt cross.

I had wondered all the morning if I was to have Leola's sapphires. I soon found out that he had no such intention. He bought me a darling sapphire and diamond bracelet, and a wonderful sapphire pendant. They cost as much as father spent in a year for the entire family. But I had become accustomed to Everett's liberality by this time. At first I had thought of it as extravagance. Now I knew that brokers, even rich ones like Everett, often make quick turns in the stock market which brought them in a great deal of money; and which they spent as easily as it came.

I was delighted with my lovely sapphires. What girl wouldn't be? I really had always loved that shade of blue. It was simply my feeling that Leola had worn it that made me object to wearing it. So I thanked Everett and leaned over to kiss him. We were in my town car, so I thought it all right. He drew back.

"Remember you are in the street, Sandra. Someone might see you who either did not know, or who did not recognize me, and would talk of my indiscretion. Save your caresses for the privacy of home."

I felt chilled, hurt. I had not heard that word "indiscretions" since he had told me of Leola being indiscreet. Now I wondered if wanting to kiss him had been what he meant. If he did not wonder she did things he didn't like—no wonder she drowned herself if he would not let her show her love for him. For the first time a stir of pity for her ran thru me. Then I recalled that Everett had said he loved her so dearly, and my jealousy was again in the ascendant.

How I wished he had not made me promise not to speak of her. There were so many questions I wanted to ask; so much I longed to know. If Everett would only tell me things, talk them over with me, I knew I would be happier. There were so many things that troubled me.

But never would I dare mention Leola to him. Never so long as I lived. But some day—after a long while when it would not seem quite as much as if I were breaking my promise never to speak of her to anyone, never ask any questions, I would get Hetty or Mrs. Gray to tell me what they knew. Perhaps they knew what Everett had meant by "indiscretions."

Everett had me set him down at his office, then I went home. I showed my lovely sapphires to Mrs. Gray and

Hetty, and in their enthusiasm and admiration for them I almost forgot that Everett had repulsed me.

"Mr. Graham loves this color," I said after a while in hopes that I might draw them out to say something about those other sapphires, "he always wants me to wear it."

Neither said anything, and I caught a fleeting glance of a look Mrs. Gray bent on Hetty. Did it mean that she Hetty was to say nothing to her about Leola's things? Had Everett told Mrs. Gray that I was not to be enlightened? How I wished I knew.

I put the sapphires away without again looking at them. Someway I always resented the fact that I was never to know about this other woman; the wife whom Everett had loved. I was persuaded that he never would love me. That he had married me simply because he wanted a wife whom he could mould, and who would be a moth er.

One day I took my courage in my hands and asked Mrs. Gray:

"Did Mr. Graham and—ever have any children? I couldn't speak her name."

"Hasn't he told you?" she asked bending a keen look on me.

"No—I didn't ask him when we had our confidential chat, and I dislike to bring it up again," I replied thinking I was wonderfully tactful.

"Then I can say nothing," she turned away, then added: "But there is nothing for you to worry about absolutely nothing."

Tomorrow—Sandra decides to be indiscreet.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easily it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

SERB FAMILIES, RUINED BY WAR, LIVE IN STABLES

Belgrade, June 22.—(Correspondence of The Associated Press.)—In northern Serbia many families, wealthy before the war, have been found by officers of the American Relief Administration and the American Red Cross living in stables and chicken coops. Their homes had been destroyed by the advancing or

retreating armies. Their beds were heaps of straw covered with burlap. It was all that remained as furniture in their once pretentious estates. They were penniless and had no clothing except what they wore.

The condition of the Serbian peasants is beyond description. A large proportion are homeless. Most families have been deprived of their wage-earners by death. The mother is now obliged to support herself and children on what she can produce on a farm stripped of its machinery and tools. Most of the small stores of seed for next spring's

sowing were removed by the enemy.

The Red Cross hospitals are crowded with mothers carrying emaciated children, old men with the infirmities of their years, old women bent and misshapen, and young men broken by war. The soup kitchens tell the same story.

DOCTOR TELLS HOW TO DETECT HARMFUL EFFECTS OF TOBACCO

Try These Simple Tests

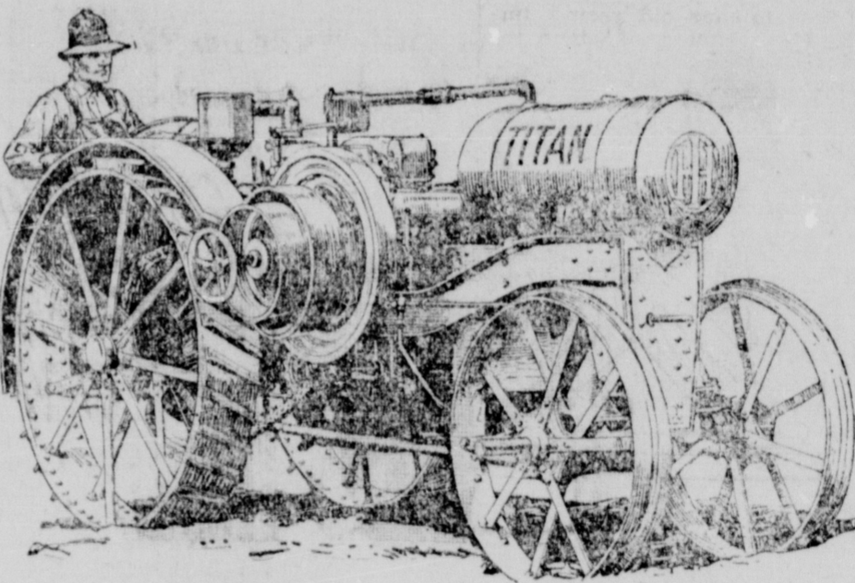

New York: Doctor Conner, formerly of Johns Hopkins hospital, says: Many men who smoke, chew or snuff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would soon get well if they would only stop the use of tobacco. The chief habit forming principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer with heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests. Read about one full page from a book. If, in the course of reading your voice becomes muffled, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke walk up three flights of stairs at a reg-

ular pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or snuff to quiet your nerves, you are a slave to the tobacco habit, and are positively poisoning yourself with the deadly drug, nicotine. In either case you have just two alternatives—keep on with the self-poisoning process irrespective of the dangers and suffer the consequences, or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco, the craving will have left you. With the nicotine poison out of your system your general health will quickly improve.

Notes.—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit; away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including the Public Drug Co

No Camouflage in This Price

We have reduced the Titan 10-20 price \$225. You can now get the world's standard 3-plow tractor for \$1,000.

THERE is no "joker" in this price. We are not telling you one story in this advertisement and then leaving it for our dealers to break the sad news that the advertised price won't buy a tractor unless you pay extra for a lot of necessary features. The Titan dealer won't charge you extra for "starting and service" before he can deliver the tractor. He won't show you a machine stripped of many essential parts—belt pulley, fenders, platform, governor, drawbar, tools—and then tell you that you can have these things by paying extra for them. The Titan at this advertised price is a complete 3-plow kerosene tractor.

Then there is another thing. We are not experimenting at your expense when we sell you a Titan 10-20. There is real farm machine and tractor manufacturing experience back of it. We have been in the farm machine business for 88 years and have been supplying tractors for 14 years. Not another company in the world knows the farmer's power and machine requirements as the Harvester organization does.

Would you entrust your bank account to a man who had never had any experience in handling money? Will you risk your farm profits in a tractor built by designers whose knowledge of farming is limited to books and a drawing board? It will pay you to think about these things when you buy your tractor.

Starting and Instruction Service

Another "joker" of some tractor concerns is to charge you a large "starting and service" fee—extra. This is another way of getting a low price for advertising purposes. But you can't get the tractor without paying this charge. They make it compulsory. The International dealer gives you this service without asking you to pay extra for it when you buy a Titan 10-20. Free tractor schools inaugurated by us, also benefit Titan purchasers in all parts of the country.

INTERNATIONAL HARVESTER COMPANY

CHICAGO

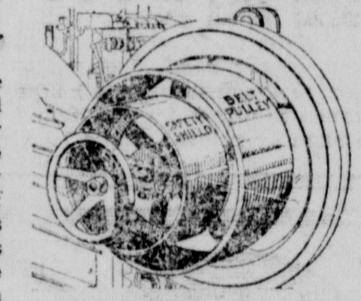

OF AMERICA INC.

U.S.A.

When you buy a TITAN the original price includes:

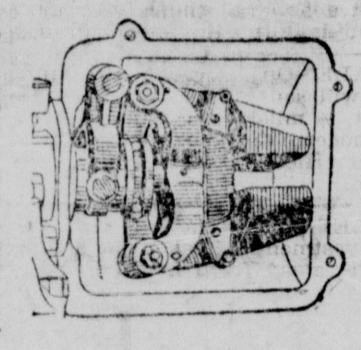

Friction Clutch Pulley

A large, wide friction clutch pulley, made in five sizes, equipped with safety shield, is mounted directly on the crank-shaft of the low-speed, steady Titan engine and delivers the full power to the driven machine. The Titan 10-20 can be quickly backed into the belt because of the location of the pulley and the belt clears the front wheels and other parts of the tractor by a generous margin. It is not necessary to dig holes for the front wheels to get belt clearance. The Titan pulley was not put on as an afterthought. The designers did not overlook it in the first place. Some tractor builders committed this very serious error, due to lack of farm knowledge and experience. To remedy this error, they designed a small make-shift pulley, in one size only, attached it in an awkward place, and charge you \$35 to \$40 for it. The Titan 10-20 friction clutch pulley is furnished without extra charge.

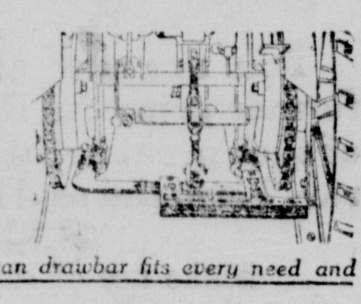

Throttle Governor

Some tractors are sold without governors because, perhaps, the designers did not know that one was needed. Which is the best economy—to pay an operator a salary just to sit on the tractor and adjust the fuel to the load variations when engaged in belt work or let a throttle governor do it without extra cost?—do it automatically, perfectly. The Titan throttle governor saves fuel, prevents grain losses by delivering uniform power to your thrasher and lengthens the life of both tractor and driven machines. You get this governor without extra charge.

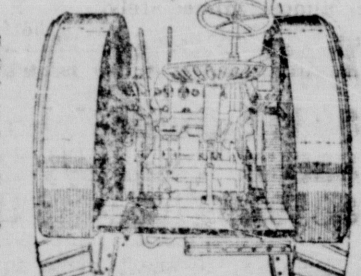

Drawbar

Some tractor builders put a hook and eye affair on the tail end of their tractors—and call it a drawbar! They seem to have overlooked the fact that a farm tractor not only pulls plows but also mowers, hay loaders, grain binders, harrows, etc., each requiring different hitch adjustment. Perhaps they didn't know about these other machines. Look at the Titan drawbar. Note the provisions for a wide range of adjustment both up and down and sideways. The Titan drawbar fits every need and it is furnished without extra cost.

Fenders

The designers of some tractors evidently did not know that the drive wheels throw dirt, dust or mud over the operator and machine unless fenders prevent it. The Titan 10-20 has such fenders. They are also a "safety first" feature. The state of Michigan has passed a law prohibiting the sale of fenderless tractors. Titan fenders are furnished without the \$40 to \$50 extra charge made by the "low-price" manufacturers.

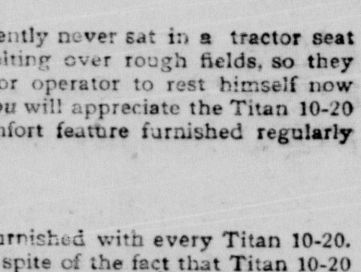

Platform

Some tractor designers apparently never sat in a tractor seat ten hours a day or more, sitting over rough fields, so they can't appreciate what a relief it is for the tractor operator to rest himself now and then by standing up, without loss of time. You will appreciate the Titan 10-20 platform that enables you to do this. It is a comfort feature furnished regularly with every Titan 10-20 tractor—no extra cost.

Tools

A complete set of sixteen tools is furnished with every Titan 10-20. This handy tool-kit is provided in spite of the fact that Titan 10-20 tractors get out of order less frequently than any other tractors in the world. Some tractor concerns whose tractors really need frequent adjustment and repairs, furnish nothing but two or three wrenches. They tell you that their product is so good that it doesn't need adjustment. Do you believe this? As a matter of fact, they omit necessary tools for the same reason they omit the essential features described above—to make a low "camouflage price"! The Titan 10-20 complete tool kit is furnished without extra charge.

SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and lazy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

BOLSHEVIKI SEEK PEACE WITH THE RUMANIAN TROOPS

Truce for Eight Days Signed—Lenine Will Give Bessarabia.

By Associated Press Leased Wire
London, Tuesday, July 22.—(Delayed)—A bolshevik delegation has arrived at Kishineff with an offer of peace to the commander of the Rumanian Dniester troops on behalf of Nikolai Lenine, the bolshevik premier according to a Berlin government wireless dispatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and hands of Admiral Kolchak, head of the all-Russian government at Omsk, from crossing the Rumanian frontier.

An armistice to last 8 days has been concluded on the Bessarabia front and the delegation has gone to Rumanian headquarters.

PRETTY GIRL TOOK NAP IN ROUGH-BOX

Freeport, Ill., July 22.—A beautiful well-dressed girl of about 18 years was found asleep in a rough-box in the Oakland cemetery Sunday morning by the caretaker, as he was performing his duties about the place. The girl, who did not awaken the girl, but when her Sunday morning beauty sleep was finally ended he asked her why she happened to be using the rough-box instead of the city's better equipped hotels as a boudoir.

The girl made only vague responses to his questioning, and the only definite statement she made was that she was running away from "someone." The caretaker says that she did not appear to be demented in her conversation or actions aside from her choice of a bedroom, and that she was not intoxicated. She disappeared from the cemetery soon after being discovered by the caretaker.

The girl's choice of a rooming place may be interpreted by some as a sad commentary upon the well-known insufficient housing conditions in this city.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often indulging in habits that these conditions are due to outside influences over which they have little or no control. Nearly always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered at. Acid-stomach, beginning with such well-known symptoms as indigestion, belching, heartburn, bloating, etc., if not checked, in time affect to some degree or other all vital organs. The nervous system becomes deranged. The person's blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage, ambition and energy slipping. And truly he is dark—not with sadness, but with the man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous, modern remedy called EATONIC that brings you back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands upon thousands of sufferers have used EATONIC with such marvellously helpful results that we are sure you will feel the same way if you will just give it a trial. House Republicans Will Discuss Many Questions Tonight

By Associated Press Leased Wire
Washington, D. C., July 23.—House republicans were notified today that tonight's party conference would consider any question presented although discussion was expected to center about proposed enlargement of the legislative steering committee. The conference will frame a legislative program to be carried out before recess, permitting some vacation, beginning late next month.

Supporters of the large committee plan proposed that four men, Representatives Anderson, Minnesota; Reavis, Nebraska; Nolan, California, and Slomp, Virginia, be added to the committee personnel.

House leaders today asserted that the conference would not be asked to select any certain men, but that additions if made, would be by conference vote. Indications were that only two men would be added to the committee.

New York Chinatown Has Been Reformed

By Associated Press Leased Wire
New York, July 23.—The transforming of Chinatown that has been in progress for a decade has finally thrust its Americanizing influences into the Chinese temple in Mott street, with the result that the Joss and the lesser idols have been relegated to a dusty closet. For years the Joss was one of the attractions of Chinatown and every well conducted sightseeing party was led before the idol that occupied a prominent position in the council hall of the temple. A Christian clergyman, the Rev. Lee To, head of the Chinese association, which now holds sway in the temple, is responsible for the removal of the idols, which is significant of the present day attitude of the Chinese toward old traditions.

False modesty has caused this subject to be ignored

Now a Fifth Ave. modiste permits us to make public her experience

"Being in a position to come in close personal contact, professionally and socially, with women of wealth and distinction," writes a well known modiste, "I have come to very definite conclusions about this subject."

"Until now I have had no intention of making these conclusions public. But recently I have come to feel that it is a thing to be remedied only by open discussion. If you feel this letter will help, you are at liberty to publish it."

"A woman whose business it is to help other women in their search for true expression of their individual selves; whose search for true expression of their individual selves is by the use of line, color and fabric to help them show the world to know other women like theirs, their personalities, their ideals and their limitations, this woman feels that the weakness that makes them fall short of their ideals. And this knowledge makes me feel that more keenly the injustice that is done to many of them are doing to themselves. I've known wonderful women, of rare personal attraction, whose gowns I made in such a way that they only emphasized this class."

How many women are doing themselves grave injustice!

"And this very knowledge makes me feel the more keenly the injustice that so many of them are doing to themselves."

"I've known wonderful women, of lovely figure, of rare personal attraction, whose gowns I made in such a way that they only emphasized this class, who, yet, I knew, would feel miserably to make others feel that they were wholly lovely. They didn't seem to know that the odor of perspiration was destroying the effect of all my efforts, all the force of their own confident pose."

How fastidious women are meeting the situation

Fastidious women everywhere know that this cannot be neglected any more than any other essential of a woman's toilet. They are giving it the regular attention that they give to their hair, or teeth or hands. They use Odorono, a toilet water especially prepared to correct both perspiration moisture and odor.

Odorono is antiseptic, perfectly harmless. Its regular use gives what women are demanding—absolute assurance of perfect daintiness. It restores the skin glands to a normal condition, correcting the cause of both the moisture and odor of perspiration.

So absolutely sure when made a regular habit

Use Odorono regularly, just two or three times a week. At night before retiring, put it on the undershirts. Don't rub it in. Allow it to dry, then dust on a little talcum. The undershirts will stay sweet and dry in any circumstances!

Women who find that their gowns are spoiled by perspiration stain and an odor which dry cleaning will not remove, can keep their undershirts normally dry and sweet by the regular use of Odorono.

If you are troubled in any unusual way or have had any difficulty in finding relief, let us help you solve your problem. We shall be so glad to do so. Address Ruth Miller, The Odorono Co., 950 Blair Avenue, Cincinnati, Ohio.

Your dealer can supply you. Go to him today and get a bottle of Odorono of the size that you prefer. Regular sizes, 60c and \$1.00. Trial size, 30c.

CORN ADVANCES
AS HOG PRICES
HIT NEW RECORD

By Associated Press Leased Wire
Chicago, July 23.—Higher prices for corn today accompanied higher prices of hogs. December, the principal active delivery of corn, rose to the top-most level yet this season. Dry weather as well as the soaring of the hog market stimulated buying of corn. Opening quotations, which ranged from 1/2 to 2c up, with Sept. 1.95 1/2 to 1.96 and Dec. 1.66 1/2 to 1.67 1/2 were followed by moderate additional gains in some cases. Oats went upward with corn. However, after opening 1/2 to 1c higher, including Sept. at 81 1/2 to 83 1/2c the market tended to sag.

Provisions scored a material advance all around owing to the strength of hogs and corn. Trade, though, was dull. Subsequently, profit taking sales by holders led to sharp down turns. The market closed nervous, 1/2c lower to 1 1/4c advance, with Sept. 1.94 1/2 to 1.94 1/2 and Dec. 1.66 1/2 to 1.66 1/2.
